[‡] As of March 1, 2018. The Adviser has contractually agreed, for a period of one year from the date of the Prospectus, dated March 1, 2018, to defer receipt of advisory fees and/or reimburse Fund expenses in order to limit Net Annual Fund Operating Expenses (exclusive of taxes, interest, brokerage commissions, acquired fund fees and expenses, and extraordinary items) to 1.15%, 1.40% and 1.05% of the average daily net assets of the Institutional Class, Investor Class and Z Class, respectively, subject to later reimbursement by the respective classes in certain circumstances (the "Expense Limitation Agreement"). In general, for a period of up to 36 months from the time of any deferral, reimbursement, or payment pursuant to the above-described contractual expense limitations, the Adviser may recover from each class of the Fund fees deferred and expenses paid to the extent that such repayment would not cause the Net Annual Fund Operating Expenses of each class to exceed the contractual expense limitation amounts set forth above, but any repayment will not include interest. The Expense Limitation Agreement can only be terminated prior to expiration by the independent Trustees of the Fund.

Past performance is no guarantee of future results; returns include reinvestment of all distributions. The above represents past performance and current performance may be lower or higher than performance quoted above. Investment return and principal value fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. 3Q18 Highlights

- Attribution: Key contributors included Bermuda-based insurer/reinsurer, Aspen Holdings, which announced its acquisition by Apollo Group. In addition, telecom operator, ATN International, rose over 40% after reporting better than expected earnings and a well-timed asset sale. The third quarter results showed that ATN's telecom assets are recovering quicker than expected from the hurricanes which hit the Caribbean last year; detractors included real estate developers Five Point Holdings and Tri-Pointe Group as well as wood products company, Interfor Corporation. We feel the fear of higher interest rates impacting the real estate industry are overblown, so we added to the positions during the quarter.
- Activity: AdvanSix, a vertically-integrated, specialty chemical company which was spun out of Honeywell was added during the quarter. It is taking full advantage of its independence by prudently investing in the business. It is well-capitalized and has an agriculture business that is underperforming, but with plenty of potential. We eliminated Legg Mason due to deterioration of the balance sheet and concerns about its ability to manage through the changes impacting the asset management industry.
- Positioning: At quarter-end, the Fund maintained an 81% allocation to long-term compounders and an 18% allocation to time arbitrage investments; the balance remains in cash. Pro-forma for the Aspen acquisition, long-term compounders drop to 73% and cash rises to 9%.
